

## **CMPUT 355 Quiz 3 Marking Rubric**

### **Winter 2025**

#### **Question 1 (3 marks)**

Each part is worth 1 mark.

-0.5 marks for each incorrect value (maximum of 1 mark taken off for each part)

#### **Question 2 (3 marks)**

+1 mark for correct blanks filled in

-0.5 per minor syntax mistake

#### **Question 3 (3 marks)**

-0.25 marks for each incorrect answer (minimum 0 marks)

#### **Question 4 (3 marks)**

- All proof trees provided must be complete and correct to receive full marks.
- If at least one complete and correct proof tree is provided, additional incomplete proof trees can remove up to 1 mark (0.5 per missing node)
- Each incorrect node or label: -0.5 (no limit)
- Each missing node: -0.5 (only limited if a complete proof tree exists)
- If leaf nodes are not labeled, no credit can be given
- If some leaf nodes are described, but not drawn out: credit is not removed for “missing nodes”; however, if the only complete proof tree is provided in this manner, it is not assigned full credit.
