cmput210 final exam coverage

class text reading

- all of The Code Book by Simon Singh

- all of the class webnotes

- all assignments

- handouts pkc, digsig, qntm

test format

- closed book: nothing allowed except pen(cil) and paper. no electronic or computational devices of any kind.

- mostly short answer, fill in the blank, multiple choice, with emphasis on both history and algorithms

- to do well, you should have carefully read and absorbed the text, followed the lectures, and understood the assignments and handouts

- about 1/3 of the final exam will cover chapters 6,7,8 (ie. material not covered by the midterms), with the remaining 2/3 covering the whole text
