|   | #1 | #2 | #3 | #4 |
|---|----|----|----|----|
| Problem statement and introduction                    |    |    |    |    |
| Explanation of the problem                            |    |    |    |    |
| Delivery, clarity, confidence                         |    |    |    |    |
| Presentation material (slides, colours, graphs, etc.) |    |    |    |    |
| Wrapping up, recapping, conclusion                    |    |    |    |    |

## Presentation #1

|   |
|---|
| 1. What was the worst thing about this presentation?                              |
| 2. What was the best thing about this presentation?                               |
| 3. Did you learn anything? What?  |
| 4. Did you notice any annoying habit that the speaker should avoid in the future? |

Use this form to note your comments and ratings during the presentations. Then, go to the 603 website (or directly to <http://www.cs.ualberta.ca/c603start/www/presentations/>) and fill out the form there. If you wish, you can wait until you've seen all of the presentations before entering your scores.
