To comply with the U.S. Copyright Law, authors are required to sign a copyright transfer form before publication. However, this form returns to authors and their employers full rights to reuse their material for their own purposes. The *Consent to Publish and Transfer of Copyright* form can be found on the journal's website at: <http://www.kluweronline.com/issn/0885-6125>. ## **REFERENCES**

References should be prepared using the APA Publication Manual for both the text and the reference list, with two exceptions: (a) do not cite the page numbers of any book, including chapters in edited volumes; (b) use the same format for unpublished references as for published ones. Examples for journals, chapters, and proceedings are given below:

Grove, A. J., Littlestone, N., & Schuurmans, D. (2001). General Convergence Results for Linear Discriminant Updates. *Machine Learning*, 43:3, 173-210.

## **PROOFING**
